Start date cannot be a past date. End date cannot exceed a year from the start date.

This is an accordion style menu and should be in COLLAPSE state by default. Selection of the checkbox should expand the stipulation.

The green bordered row indicates the edit mode of the specific row where the user can see the respective textboxes.

The information icon appears on all the erroneous rows, which upon a click displays the list of error messages pertaining to that row. Total Weight is wrong. Axle spacing 1-2 is missing. Axle Weight 2 is missing. Minimum 2 Axle Weights are required.

Expand should only be available upon importing vehicle data from an external file.

The red bordered rows indicates erroneous information inside the row.

The file names are displayed as hyperlinks allowing the users to click and see the file in a separate browser tab.

The green add button, upon a click should add the file in the table below. User can click on the add button multiple times to add the same file multiple times.

The 'File Type' drop-down menu should NOT allow users to select multiple options. Also this is a dynamic menu populated based on permit type selection.

This is a pre-populated and non-editable section. Organization Name is pulled from Organization profile and the address details are pulled from Division section.

The 'Other' fields are displayed ONLY when user selects 'Other' from the corresponding drop-down menus.

The vehicle registrations are hyperlinks, which upon a click opens the vehicle history in a separate browser tab.

The vehicle history and summons page designs are in progress.

The icons should display names on hover.

These are the names sequentially:

1. Summons
2. Over Dimensional
3. Rejected
4. Removed by applicant

The review columns will appear based on the role of the logged-in user and application status.

The logged-in user can choose to see or hide the other review columns by selecting or deselecting the checkboxes.

The checkbox selection/deselection will show/hide the respective columns on the grid.

The "Stipulations/Rejection Notes" column for the DOT Final reviewer is prepopulated with all the stipulations/rejection notes provided by all the engineers (Truck, Bridge and State).

All these three prepopulated stipulation/rejection notes should be separated by semi colon.

The DOT Final reviewer has the ability to edit this concatenated stipulations/rejection notes.

"DOT Review Notes" is EXCLUSIVELY for DOT users (Initial and Final).

"Engineers Notes" is EXCLUSIVELY for engineers (Truck, Bridge, and State).

Selection of "Accept" radio button will display the permit information section.

Start date and End date are prefilled with Permit dates requested by the applicant. DOT Final Reviewer can edit these dates.

DOT Final Reviewer can edit the days and time slots of the requested permit.

Reviewer can save the changes made on this page to further ensure the validity of those changes before sending the application to print queue.

Print Preview opens the pdf in a separate browser tab listing the previews of permits for all the approved vehicles in the fleet.

'Print Preview' and 'Send to Print Queue' buttons are disabled by default. When the user selects "Accept" radio button on the Decision Notes, these buttons are enabled.
